01 / PRODUCT OVERVIEW

C3c High-speed Overlock Sewing Machine

A productivity-focused overlock platform with servo-assisted pressure-foot shear, smooth stitch output and multiple thread configurations.

UP TO

5,500

MAX. SPEED /
S.P.M.

Efficiency improvement

With a comprehensive efficiency improvement of 25%, based on a monthly wage of \$250 per worker, each machine generates an additional \$62.5 in monthly revenue. Working ten months a year, a machine can generate an additional \$625 in annual revenue.

SERVO-ASSISTED SHEAR

Soft shear/cutting sound and fast response.

SMOOTH STITCHES

Source brochure highlights reduced lint output.

MULTIPLE THREAD OPTIONS

3-, 4-, 5- and 6-thread source configurations.

02 / PRODUCTIVITY

Efficiency Improvement

The supplied JACK C3c brochure states a comprehensive efficiency improvement of 25% and frames the model around lower operating cost and higher return.

EFFICIENCY IMPROVEMENT

Efficiency improvement

With a comprehensive efficiency improvement of **25%**, based on a monthly wage of \$250 per worker, each machine generates an additional \$62.5 in monthly revenue

Working ten months a year, a machine can generate an additional **\$625** in annual revenue

Source business-value claim

The brochure also gives example monthly and annual revenue calculations based on its stated assumptions.

03 / STITCH QUALITY

Servo-assisted Pressure Foot Shear

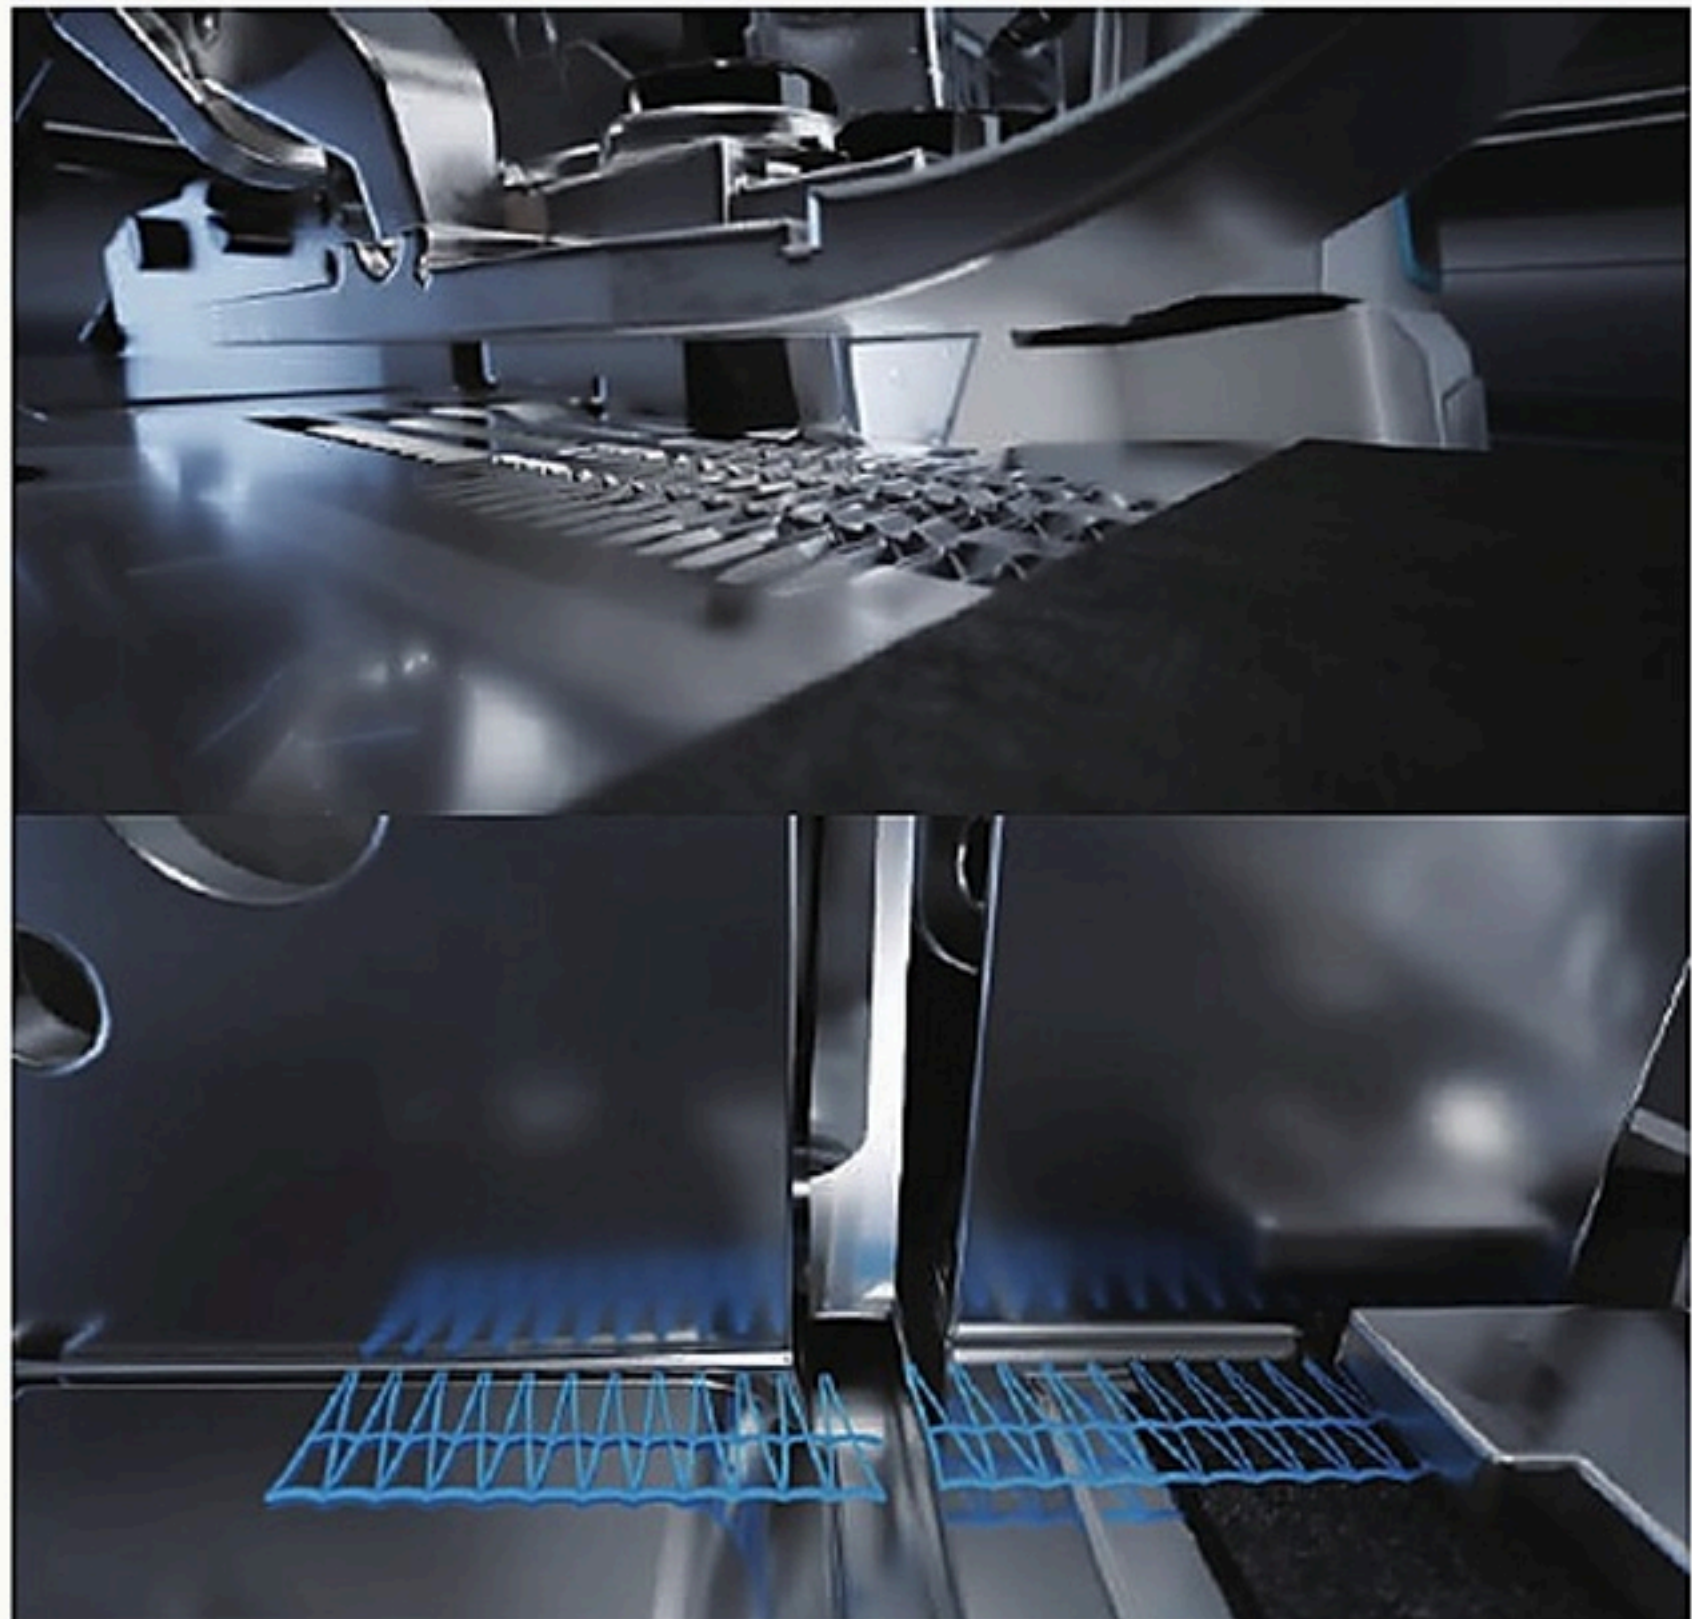

JACK describes the shear and shear-cutting sound as soft, the response as fast and the service life as long. The brochure also highlights smooth stitches with less lint.
